

Ricky & Daniell

Introduction

Thank you for taking the time to read about us! We are **Ricky** and **Daniell**. We can't imagine the difficult decision you are facing and believe in our hearts that God will lead you in the right direction for you and your child. We are excited to tell you our story and learn about yours!

Our Story

We've been married for 9 years and have desired to be parents for many years now. Since we're unable to conceive, choosing adoption was an easy decision as we have several close members of our family that were adopted (Daniell's father and two of Ricky's cousins). We have a LARGE, CLOSE, & LOVING family! We're super excited to become parents and have already begun preparations for our future baby.

Daniell (by Ricky)

Daniell is my best friend and the most amazing woman I know. She is compassionate, loving, generous and very nurturing. Daniell's attributes shine through when she is caring for our nieces, nephew and cousins. She carries the mantle of a caregiver and provider. To put it plainly, Daniell is a mother inside and out.

Ricky (by Daniell)

Ricky is a wonderful son, brother and husband. Growing up with three brothers, one of which is his identical twin, ingrained a tight family bond within Ricky and that same bond extends to the entire extended family. Ricky is a student of history and also enjoys practicing jiu jitsu to maintain an active lifestyle. Ricky's inquisitive and caring nature will provide stability and love for our family.

Big, Crazy, Close, Supportive & Loving Family

Daniell's Immediate Family

Ricky's Immediate Family

15 kids and counting..

Our home

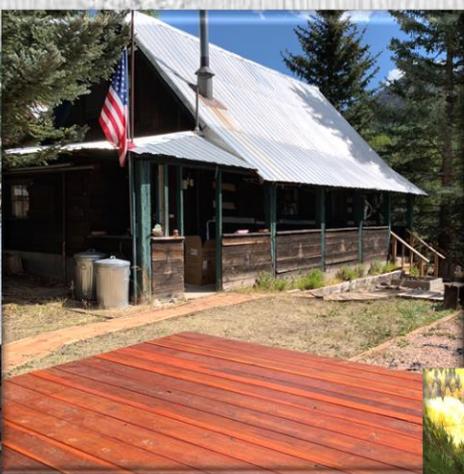

We've lived in our beautiful home for over 6 years. This is what we call our *forever home*. We have 4 bedrooms, 2 baths, a gated courtyard, backyard, and we're conveniently located near the neighborhood park. Our home is not only big enough for a growing family, but we live down the street from many of our close family members.

Dakota

Kona

Colorado Cabin

The cabin has been in our family for 50+ years. As a family, we visit at least 4 times a year and go fishing, ride bikes, hike, or just lounge around the cabin.
NO WIFI. NO CABLE. JUST FUN!
