

# Morgan & Trish

Hello! We are Morgan and Trish! Thank you for considering adoption and for learning more about our family. We know this chapter in your life may be hard, but we are certain that God has a plan for you and your baby.

We may not have met you yet,  
but we are already praying for you and your little one.

We would be thrilled to be on this journey with you.

We are sure this choice is a tough one.

Whether you choose to create an adoption plan or parent yourself, just know  
God is right there with you.

# Morgan & Trish

Here are a few things to know about us; we've been married for 20 awesome years and best friends for over 23.

We met at a record store and became buds over 80's new wave music.

We both love arts and building... Morgan is a woodworker, a mechanic and can fix anything! Trish has a knack with hot glue, loves to sing and can be crafty with anything! Together we love to build with LEGO, create something delicious in the kitchen, SCUBA, travel and play all sorts of games!

## Dax

God put adoption on our hearts many years ago and He was faithful in answering our prayers when He brought us Dax in 2016! We have been so blessed to experience this unconditional love and are so excited God has called us to grow our little family. A few things to know about him; Dax is 7 years old and loves to PLAY! He's a singer, makes beats, has amazing dance moves, he's a comedian and likes any game you put in front of him. He's so smart, a huge snuggler and loves to run and swim!

# The rest of the family...

Padme

We have a very large community of family and friends who surround us with love and support. We have 12 nieces and nephews we enjoy spending time and living life with whenever possible. Morgan's mom lives close by and we see her all the time. Trish's mom and dad live a city away and we visit often. All of the grandparents love to play and be silly and are excited to share their love with your child. The whole crew is excited for our family to grow through adoption!
