

# TYLER & EMILY

Tyler, and I are so very excited to be on this journey to grow our family. We have one son, Gavin, who is so excited to be a big brother. Tyler is the youngest of 5, and I am the middle of 4 children. We always planned to have more than one child and are grateful to you for allowing us to make that dream come true. Emily teaches 5th grade math, Tyler works in finance, and Gavin attends preschool. We have been praying for a long time about growing our family and are so grateful for the opportunity to adopt.

# OUR FAMILY

We love to go on vacations to Disneyland, and recently went on a Disney Cruise that was a lot of fun. Our son loves water, in the summer you can often find us swimming, or looking for places to swim! We don't love the hot heat in the summer and try to find activities to do indoors during that time. We are a pretty routine family during the week with work, school, and activities such as swim lessons, soccer practice, and sometimes music lessons. On the weekend we love to go to the movies as a family, Church, hike, visit the zoo, and hang out with friends and family. We are always looking for new parks to play at to burn some of Gavin's energy.

# A LITTLE ABOUT US

## EMILY FROM TYLER'S VIEW

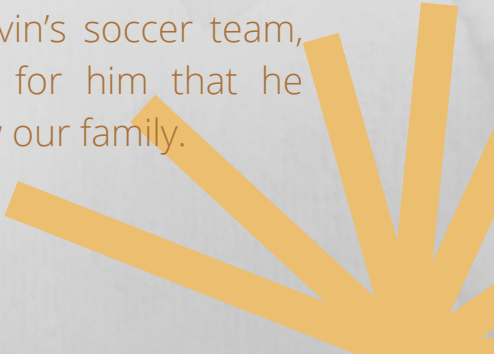

Emily's heart is full of love, which is evident from the way she treats those around her, with kindness, respect and compassion. Emily's love for Gavin is incredible, leading him to definitely be a "mommies boy," which is something that I adore. Emily is the glue to our family, Gavin and I are grateful for our family vacations, delicious meals, and daily routines that Emily provides for our family. Often times, strangers will compliment Gavin's well-mannered behavior (thanks to Emily) and comment "you should have another baby," though they do not understand that is not a possibility for us without adoption. Emily is excited to grow our family through the adoption process.

---

## TYLER FROM EMILY'S VIEW

Tyler is such a hard working man that loves spending time with his family, quad riding, and hiking. He works in Finance and has for the past 11 years. He is very secure in his job and loves what he does. He is a loving father. Gavin wants to be just like him when he grows up. He coaches Gavin's soccer team, something his father did for him that he loved. He can't wait to grow our family.

# GAVIN

Gavin is such a fun boy, who has a love of life. He is the life of a party, full of energy, and always hungry. Gavin has worked really hard to become a great swimmer, and he loves to be outside. Though he sometimes struggles with listening he is very well behaved overall! In preschool he is a big helper to his teachers and his friends, he is so excited and ready for kindergarten.

Adopting for us means so much to our family. After birthing our son Emily had a lot of complications leaving us without the ability to grow our family without adoption. She is grateful to be alive and healthy and we know that God has planned an adoption for us. We pray everyday that an expectant mom will find us the perfect fit.
