

Meet Kayla!

Meet Kayla, an active and happy girl! Kayla loves to sing and dance. She will dance anywhere and to any music.

She also likes playing with dolls and likes to color. She loves to be active from running around, cheerleading, you name it! Kayla is also a helper and loves to help others clean up, put things away, and any other small task you might need.

Kayla is very smart. She is starting to use her voice more but is also learning some sign language. She can sign words like all done, help, and yes. She is also a great eater and loves food. Some of her favorite foods are chicken and rice, curry, and spaghetti. At daycare, Kayla picks up on what they are teaching her quickly and is making amazing progress!

The best family for Kayla is a two parent home. Kayla thrives on one on one attention and would do best as an only child but would do okay in a home with older children. Kayla has medical needs so a family that has a flexible and open schedule that would allow them to meet these needs is preferred. Only homes without animals will be considered as Kayla is afraid of animals and does not know how to interact with them. Families out of state will be considered if their schedule is flexible and open enough to meet Kayla's medical needs.

Kayla was born in 2020.
