Meet Lexi!

Lexie is a spirited girl who loves soccer, volleyball, swimming, and hanging out with friends.

She is on her middle school volleyball team and loves it! She is active but also enjoys staying home and playing video games like Fortnite. During the scorching summer days, you could find her at the neighborhood pool, diving and splashing with her friends or inside playing video games.

Lexie has a newfound passion for sewing. She experiments with different fabrics, stitches together her designs, and dreams of becoming a fashion designer. She loves shopping and her favorite shopping places are Ross, TJ Max, and Walmart.

Lexie is quiet but once she is comfortable, she has a talkative nature that makes her a favorite among her peers. Her enthusiasm is contagious, and she has a natural gift for bringing people together.

Lexie would love a two-parent household with brothers. She would love to be the oldest in the home but is okay if she has older and younger brothers. She wants someone that she can play around with and be silly with. Lexie loves to be active and would love for her family to want to do these things with her. A family who will be supportive of her athletic interests is also important. The ideal family would be consistent and attentive to Lexie.

Lexi was born in 2011.
