

Meet Itzel, Fabian & Xitlali!

Meet Itzel, Fabian, and Xitlali, three fun and energetic siblings who are looking for their forever family!

Itzel has a curious mind! During her free time she enjoys watching YouTube videos and playing video games. Her favorite food is pizza, but also loves McDonald's. She is very crafty. She loves playing games and video games but is not much of a TV watcher. She also loves make-up!

Fabian is very active. He enjoys building things with Legos and architecture in general. He loves anything with wheels that he can ride. When outside, Fabian loves sports like football and soccer. Inside, he enjoys playing video games.

Xitlali has a very outgoing personality. She is very girly and loves to match her hair bows to her outfits. Like her older siblings, she enjoys watching YouTube and playing videogames like Minecraft. Her favorite shows and YouTube channels are "Rainbow Friends" and "Mikey Bots." She loves to be outside and playing water activities.

Together, these siblings would benefit from a home that is able to provide them with one-on-one attention while helping maintain their strong sibling bond. A two-parent home that has experience parenting children with trauma is ideal. It's also important that the family will be able to provide structure and teach them about healthy, safe relationships and boundaries.

Itzel was born in 2014. Fabian was born in 2015. Xitlali was born in 2017.
