

Meet Trevor!

Trevor is a bright, thoughtful, and creative child whose ingenuity and imagination knows no bounds.

Whether he's writing fictional stories, coding video games, solving complex math problems, or crafting lyrics for his original songs, Trevor is always up to something innovative. His dream is to become a video game programmer and developer, a passion he's already begun pursuing by designing and testing his own games.

Trevor also loves collecting Pokemon cards, and he even creates homemade versions to expand his collection. His love for cats runs deep, and he treasures his collection of cat plushies. When it comes to music, Trevor is a big fan of Imagine Dragons and Fall Out Boy, often singing along and dreaming of attending one of their concerts one day. He is also a thrill-seeker who enjoys theme parks, especially for the games and adventures they offer.

Buffets are Trevor's favorite type of restaurant, particularly if they serve his top dessert: mint chocolate chip ice cream! When he's not gaming, you'll often find him relaxing with a good book - he especially enjoys the Wings of Fire series. If he could travel anywhere in the world, Trevor's dream destination would be Japan.

Family is very important to Trevor, and he envisions one that enjoys spending quality time together. He values trust, respect, and genuine care between family members. Trevor is also proud of his Christian faith and his recent baptism. He would love to join a family that shares his faith and enjoys attending church together.

Trevor was born in 2013.
